Using projector in C639

The projector is now connected directly by an HDMI cable. Airplay via Apply TV is no longer active.

We have installed an HDMI switch that allows you to use either the iMAC or your laptop.

To use the iMAC: set to position “2”

To use your laptop, set to position “1”.
  You have 3 connection options:
    1. HDMI
    2. VGA
    3. Thunderbolt (mini display port)

If you need assistance, please contact either:
1. HMS-westquad_support: westquad_support@hms.harvard.edu
2. CellBio IT support: cellbioit@hms.harvard.edu

Please remember to turn off the projector when you’ve finished!
